

My home in Amsterdam

 Please print this page or its printable version [with map and instructions](#) and **have it with you** when coming to my flat as most people have difficulty finding the building I live!

Address: [Koningin Wilhelminaplein 220](#), 1062 KS

How to find the flat: Right opposite the [World Fashion Center](#) (almost opposite the main entrance) and at the same time opposite the Berghaus plaza building lies the building complex where I live. They are two 13 floor tall buildings perpendicularly build against each other. I live on one of them (A1), the wider one on the 8th floor, flat 220. Watch out as there are two entrances, which lie in the middle (inside) of the building complex and each of which leads to a different part (wing) of the building. You have to [go up the stairs](#) and walk along the corridor between the buildings to reach my building entrance. Note that the street name is not written on the street and the flat number is the street number. It is also confusing as there is a building opposite with 2 floors with the same number 220 (I don't live in this one, but in the one with 13 floors),

How to get to the area. By public transport:

- From [Amsterdam Centraal train station](#) or [Leidseplein](#) take tram 2 and get off at stop [Delflandlaan](#) or tram 1 and get off at [DerKinderenstraat](#). Walk towards the [World Fashion center](#). Ticket costs €2,40 if you buy the ticket in the tram.

- From [Schiphol airport](#) take train towards Amsterdam Central Station and get off at station [Lelylaan](#). The ticket from Schiphol to Amsterdam Lelylaan costs €2,90. Some intercity express trains to Amsterdam Central don't stop at Lelylaan.

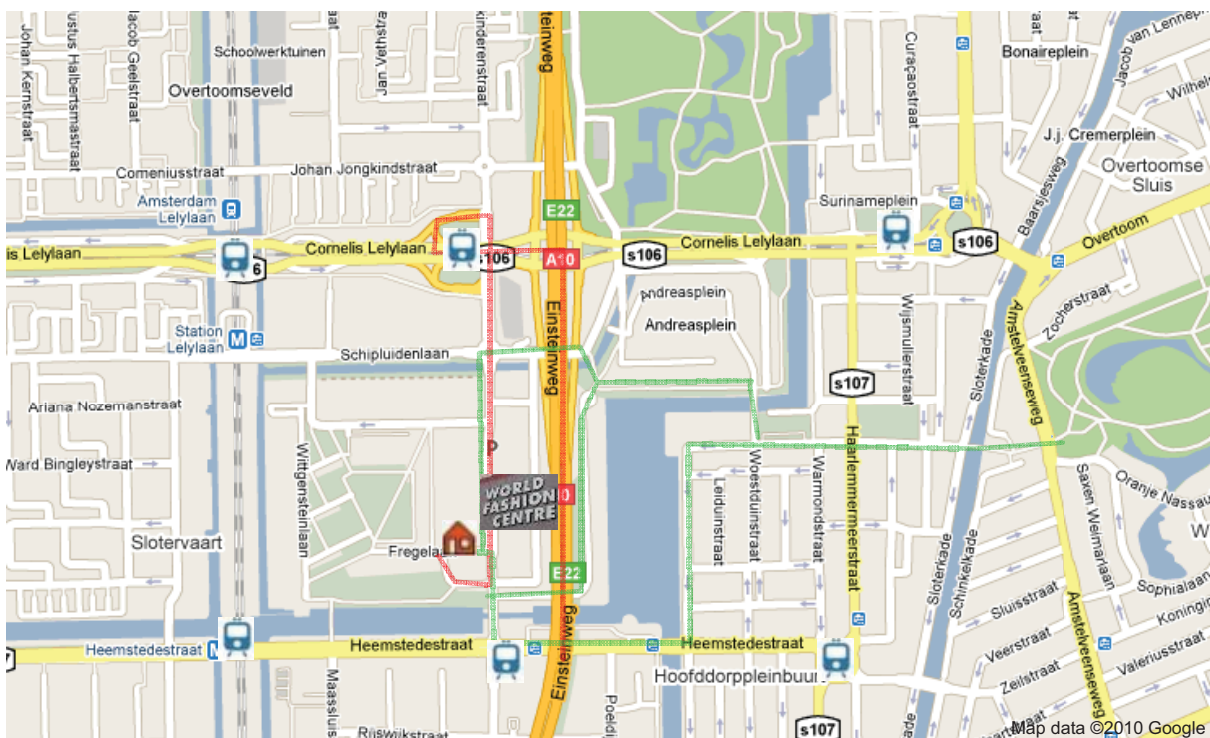

- From [Amsterdam Bijlmer](#) or [Amsterdam Zuid](#) take metro 52 and get off at [Heemstedestraat](#) or [Lelylaan](#)

--- **By bike:** 5 minutes ride from the south entrance of [Vondelpark](#)

--- **By car :** On the A4 take exit towards Zaanstad, enter A10/E22, then first exit towards Osdorp-s106.
